## MTS Micro Needling System

*Professional and Home care system*

**DermaFix Cosmeceuticals** are on the forefront of technology and source the best treatments from all over the world and are pleased to announce its new range of **ActiveCellCeuticals!** (available June 2011)

FDA and CE certified

**MTS Microneedling System** - The Micro Needle Roller is utilized to **stimulate collagen induction** by creating microscopic channels in the skin, to increase the formation of new tissue. The micro-channelling causes the release of growth factors that promote scarless healing. This procedure is more consistent in increasing the thickness of the skin than most other resurfacing techniques and acts as a **Transdermal Delivery Device** to increase the penetration of active ingredients.

**DermaFix ActiveCellCeuticals** - includes a range of Growth Factors, Stem Cells, Specialized Peptide complexes in Liposomes, Lamellar Structured Ceramides in Serums and Boosters infused through the microscopic channels in the skin created by the treatment of the MTS Micro Needling System.

**Micro Needling is an excellent technique used to improve a wide variety of skin conditions:**

- Ageing/Sun Damaged Skin
- Stretchmarks
- Fine Lines & Wrinkles
- Uneven Skin Texture
- Hyperpigmentation
- Acne Scarring
- Surgical Scarring
- Hormonally Deficient Skin

**DermaFix MTS Micro Needling System** and **ActiveCellCeuticals** combined with professional in-clinic skin care treatments and DermaFix Cosmeceuticals home care prescriptions are a
